NEWS RELEASE

Imaging Biometrics Earns ISO 13485:2003 Certification

Milwaukee, WI – Imaging Biometrics, LLC (IB), a biotechnology company specializing in the development of advanced medical image analysis software, announced today that it has earned the International Organization for Standardization’s (ISO) 13485:2003 certification.

ISO13485:2003 is an internationally recognized quality standard supporting the design and manufacture of medical devices. Companies receiving the certification must demonstrate their ability to provide medical devices and services that consistently fulfill customer and regulatory requirements.

“Achieving this certification further strengthens our ability to serve global markets,” stated Timothy Dondlinger, Chief Operating Officer of IB. “Our compliance with the ISO standard validates our dedication and commitment to providing the highest quality products to our growing base of clients around the world.”

About Imaging Biometrics, LLC

Imaging Biometrics™ develops and provides medical imaging and analytical solutions that enable clinicians to better diagnose and treat diseases with greater confidence. Through close collaboration with top researchers and clinicians, sophisticated advancements are translated into platform-independent software plug-ins which extend the base functionality of workstations, imaging systems, PACS and medical viewers. By design, IB’s advanced visualization software seamlessly integrates into routine clinical workflows.
